After a period of discussion, there being no objection, Supervisor Renne withdrew her pending motion.

In response to questioning by Supervisor Britt, Deputy City Attorney Mark Kertz advised that under the Charter the Board has a mandatory duty to adopt the annual budget by August 1. He further stated that adoption of the budget requires only one reading but that the annual appropriation ordinance, which must be adopted accordingly, takes two readings and there has to be a budget in place before the appropriation ordinance may be passed. He stated that the only date in the Charter for the appropriation ordinance is August 20, the date by which the Board must act on any veto thereof by the Mayor. Mr. Kertz then advised the Board that it should rescind the vote by which it refused to adopt the budget and either continue the matter or recess, but not to adjourn the meeting on which there is a matter that the Board has mandatory duty to adopt.

Supervisor Hongisto, seconded by Supervisor Kopp, moved to rescind the vote by which the Board refused adoption of the annual budget as amended.

Requests Granted

By Supervisors Walker and Nelder that a letter be sent to her Honor, the Mayor, requesting that she consider proclaiming the week of August 20-26, 1984 as "Ninoy Aquino Week" in San Francisco.

Monday, August 6, 1984

By Supervisor Ward, that a letter of inquiry be sent to the Art Commission concerning the Art Reach Program, an educational program of the de Young Museum Art School which provides art classes to elementary school children in San Francisco, to determine whether the Commission has plans for inclusion of this program in its budgetary considerations or whether it is currently considering requesting a supplemental appropriation to fund the program.

By Supervisor Hongisto, that a letter be sent to her Honor, the Mayor, concerning recent newspaper articles in which it is reported that the stadium task force has been assigned to consider the feasibility of building a smaller downtown stadium to be used for sporting events, concerts, convention and other uses, and to look into the rehabilitation of Candlestick Park at an approximate cost of \$5 million. In connection therewith, Supervisor Hongisto requested that the following inquiries be made: If the task force work to be accomplished for these projects (including architectural, engineering, planning, construction, cost, legal and other technical analysis, if needed) is to be done by outside consultants at a cost to the City, will a supplemental appropriation be submitted to the Board of Supervisors prior to any work being accomplished by the outside consulting firm? If the work is to be accomplished by City employees, have funds for this been included in the budget?

By Supervisor Hongisto, that the City Attorney be requested to advise what possible legislative approaches or planning controls may be undertaken by the Board of Supervisors that would help conserve existing gas station auto repair facilities.

By Supervisor Kennedy, that a letter be sent to the Director of Public Works and the General Manager of Municipal Railway, to obtain a clarification of the present policy of these departments with respect to the placement of newspaper racks and news vendor kiosks on City Streets, particularly on those parts of a sidewalk which are part of a bus zone.

By Supervisor Nelder, that a letter of inquiry be sent to the Director of Planning to determine why the Apostleship of the Sea, which has played an important part in San Francisco's maritime industry, has not been recommended for landmark designation by the City Planning Commission so that it may be preserved in conjunction with other buildings to be protected, in light of the proposed rezoning of Rincon Hill that would allow high density development.

By Supervisor Nelder, that a letter of inquiry be sent to the General Manager of the Recreation and Park Department, to determine whether recent allegations of an extremely large rat population at the San Francisco Zoo are correct and, if so, what steps are being taken to abate this problem. In connection therewith, Supervisor Nelder wished that he be advised of her intention to call for public hearings on this subject should a response to the inquiry not be received by September 1, 1984.

By Supervisor Renne, that a letter of inquiry be sent to the Director of Public Works to determine what traffic actions, like sign-posting for motorists, have been taken in the North of Market Rehabilitation Assistance Program area for the protection of the increasing number of small children in the area.

Monday, August 6, 1984

By Supervisor Renne, that a letter of inquiry be sent to the Director of Purchasing to determine (a) how much money is spent by various city departments on chemicals for water treatment, (b) whether this information is a matter of public record, and (c) what is the bid procedure therefor. Supervisor Renne advised that she was informed by a person who was interested in making a bid on various chemicals for water treatment that it was necessary for a member of the Board of Supervisors to make these inquiries and, if this information is correct, inquire why.

By Supervisor Silver, that a letter be sent to the Golden Gate National Recreation Area transmitting to it for response and appropriate action a communication from Ms. Kathleen George of 2278 45th Avenue, San Francisco, concerning general maintenance of the Ocean Beach and common areas, particularly the area on both sides of the Taraval tunnel.

By Supervisor Silver, that a letter of inquiry be sent to the Chief of Police to determine whether intelligence officers, as opposed to officers at district police stations, are being deployed on a regular basis by the department to participate in the investigation and tracking down of persons responsible for the slaying of John Dennis O'Connell.

By Supervisor Molinari, that a letter of inquiry be sent to the Director of Public Works concerning the traffic problem caused by cars double parked by drivers using automatic teller machines to determine whether any consideration has been or can be given to establishing passenger zones in these areas for the benefit of persons using the machines rather than encouraging the practice of double parking at these locations, and to determine whether departments took cognizance of the potential traffic problems that could occur when granting permission for placement of the automatic teller machines.

By Supervisor Silver, that the City Attorney be requested to prepare appropriate legislation to create "compact car" parking spaces on metered and non-metered streets.

By Supervisor Silver, that a letter be sent to the Department of Public Works, the Mayor's Parking Task Force and the Parking Authority to solicit their comments on the creation of "compact car" parking spaces on metered and unmetered streets.

By Supervisor Nelder, that the City Attorney be requested to prepare appropriate legislation to create an arbitration board or committee which would arbitrate complaints of non-compliance with San Francisco's heat ordinance on a case-by-case basis.

By Supervisor Walker, that the City Attorney be requested to review as to form her proposed resolution in support of declaring San Francisco a "Sanctuary City" where refugees and undocumented persons will not live in fear of being deported, and City agencies will not cooperate with the U.S. Immigration and Naturalization Service by providing information, and that basic City-run emergency survival services be provided to all people in need.

Monday, August 6, 1984

By Supervisor Silver, that a letter be sent to the Police Commission, District Attorney's Office and California Highway Patrol transmitting to them for review and comment a copy of a telephone message her office received from a constituent, alleging that a representative of the Policeman's Motorcycle Association telephoned him soliciting a contribution of \$30 for a ticket to the policeman's ball to be held at Cathedral Hill Hotel, and inquiring whether any member of the Police Officer's Association or other law enforcement organizations are participating in this type of fund raising event.

By Supervisor Nelder, that a letter of inquiry be sent to the General Manager and Chief Engineer of the Water Department, to obtain a record of all complaints received by the department within the last year having to do with giardia infestation at sites both within and outside of the city's limits, and requesting that his response indicate whether the complaints related to city property or locations receiving city water and the procedures taken by the department on each complaint.

Requests Granted

There being no objection, the Board directed the Clerk to comply with the following requests:

Monday, August 13, 1984

By Supervisor Britt, that letter of inquiry be sent to the Assistant Director of Planning-Implementation and Zoning Administrator to determine the status of the surveys initiated in September of 1983 concerning traffic circulation and/or parking along Ocean Avenue and Monterey Boulevard which were requested by the Board in connection with its review of the Ocean Avenue and Monterey Boulevard Affordable Housing Special Use Districts.

By Supervisor Britt, that letter of inquiry be sent to the Chief of Police to determine whether police patrols have been increased in the area of Guerrero and 14th Streets in response to the sudden increase in assaults and thefts in that neighborhood.

By Supervisor Britt, that letter of inquiry be sent to the Police Commission to determine what the policy of the Commission is with respect to police officers engaging in casual expressions of affection with persons of the same sex while on duty.

By Supervisor Maher, that letter be sent to the Department of Public Works, requesting that consideration be given to investigating the need for a Stop sign at Davis and Jackson Streets and forwarding correspondence received from interested parties for review and comment.

By Supervisors Maher and Walker, that letter of inquiry be sent to the Residential Rent Stabilization and Arbitration Board to determine how many calls have been received by the Rent Board from landlords and tenants concerning security deposits, what advice will be given to tenants who do not receive their interest and how the Board plans to publicize the fact that the interest is due and payable on September 1 of this year.

By Supervisor Nelder, that letter be sent to the Alameda County Board of Supervisors, inquiring as to what steps will be taken to protect the water quality of nearby reservoirs of the San Francisco Water Department in the event the surface mining permit SMT-17 Apperson Ridge Quarry is granted and what plans exist to protect wildlife, including bald eagles, in this area.

By Supervisor Nelder, that letter of inquiry be sent to the Secretary-General Manager of the Retirement Board requesting information relative to the time required by it for processing of claims for retirement benefits, death benefits and workers compensation benefits.

By Supervisor Renne, that letters of inquiry be sent to the Director of Public Works and General Manager on the elevated cable car platform at California Street and Van Ness Avenue and whether advance warning signs can be installed for motorists traveling east on California Street at Van Ness Avenue. Supervisor Renne noted that the raised area designating the terminus of the cable car line causes motorists traveling east on California Street to swerve to the right at the last moment and creates a safety problem for both pedestrians and motorists at this location.

By Supervisor Renne, that letter of inquiry be sent to the General Manager of the Recreation and Park Department requesting his review and report on the condition of softball fields throughout the City.

By Supervisor Molinari, that letters be sent to the Pacific Bell Company and the General Manager of the Recreation and Park Department to determine whether they will cooperatively investigate the feasibility of installing public telephones at Washington Square Park and the North Beach Playground, for use by persons using these facilities. Supervisor Molinari noted that he has received several inquiries from constituents concerning the absence of public telephones in the vicinity who reported instances where children injured at both facilities had no telephone handy to place an emergency call.

By Supervisor Silver, that the City Attorney be requested to advise why the provisions of the proposed ordinance relating to the sale of income tax benefits associated with the delivery of mass commuting vehicles contained in Board File 65-84-1, delegating to the President of the Board or, in the event of unavailability of the President, then to the Chair of the Finance Committee, the authority to sign and thereby effectuate Section 168 agreements without further approval of the Board are not contrary to the provisions of the Charter requiring approval of said contracts by the Board.

By Supervisor Walker, that the City Attorney be requested to advise what impact the passage of SB 2250 would have on local law. This bill, in its present form, would impose certain limitations and prohibitions on the making and receiving of campaign contributions, including those for local elective offices.

By Supervisor Nelder, that the City Attorney be requested to draft appropriate legislation to provide for issuance of parking permits to local residents in the St. Francis Wood area, exempting said residents from certain parking regulations in their immediate neighborhood.

By Supervisor Kennedy, that the Budget Analyst be requested to conduct a management audit of the Purchaser's Office with the goal of providing the Board of Supervisors with specific recommendations to upgrade and improve the record keeping and disbursal procedures of that office.

By Supervisor Nelder, that letters be sent to the Art Commission and the Recreation and Park Department, informing them she has requested hearings to evaluate the condition of outdoor bronze statuary owned by the city and also to consider possible methods of restoring and maintaining the statuary, including methods of funding said restoration, and inquiring as to their comments on such conditions and of any process in place for the purpose.

By Supervisor Walker, that the Clerk determine whether any action has been taken to designate the San Francisco Refugee Forum as the responsible body for putting together a plan for refugee services in San Francisco, and, if no action has been taken, to determine whether San Francisco Refugee Forum could be designated by the Board as the responsible body to develop a plan for the Board's approval for submission to the State Office of Refugee Services.

By Supervisor Walker, that a letter of inquiry be sent to the Department of Public Health to determine what is being done to correct the reported health hazard presented by ponded sewage at 241 Church Street.

By Supervisor Britt, that the City Attorney be requested to clarify, within ten days, whether city health or research facilities would be obligated or are presently empowered to turn over names of persons presently diagnosed with AIDS or AIDS-related conditions or those participating in any AIDS-related research project to any federal, state or any other entity, and whether it is the obligation of any private medical or research facility to provide such information should a request therefor be made by any local, state or federal government agency. In connection therewith, Supervisor Britt further requested that the City Attorney advise the Board what legal remedies are available to protect the privacy of persons who have sought medical care or are participating in research projects with the understanding of confidentiality relating to that treatment or research participation.

By Supervisor Britt, that a letter of inquiry be sent to the Director of Health to determine what records are presently kept by the department on persons with AIDS or AIDS-related illnesses or on those who have participated in AIDS-related research, and the policy of the department with regard to release of such information. Requests Granted

There being no objection, the Board directed the Clerk to comply with the following requests:

Tuesday, September 4, 1984

By Supervisor Britt, joined by Supervisor Nelder, that a letter be sent to Parking Authority inquiring as to an estimate of costs of implementing a system of city-wide preferential parking where citizens would not have to pay to park in own neighborhood.

By Supervisor Britt, joined by Supervisor Nelder, that the City Attorney be requested to prepare legislation to institute a system to give priority to residents for long term parking on a city-wide preferential parking plan.

By Supervisor Britt, joined by Supervisors Hongisto, Kennedy, Silver, Walker, that a letter be sent to the Public Utilities Commission regarding the cost of continuance of the Historic Trolley Festival.

By Supervisor Hongisto, that a letter be sent to the General Manager of Municipal Railway, reminding him of long standing community interest in the bus stop at Geary Boulevard and Wood Street, calling to his attention problems MUNI patrons, desirous of boarding and exiting the 38 Geary at Wood Street, are having with drivers who are unaware of the coach stop there, and inquiring whether he will cause a permanent full-sized bus stop and sign to be constructed there and to instruct all 38-Geary operators to observe the stop.

By Supervisor Kopp, that a letter be sent to the City Attorney asking him to prepare an ordinance amending Section 22a of the Police Code as follows, "Substantial obstruction under this section includes unlawful, intentional, and malicious intimidation of any person or persons from lawfully using any street, sidewalk, passageway or other public place. It is not a defense to a charge under this section that alternative means of access, entrance, exit, or passage existed at the time of the substantial obstruction of any street, sidewalk, passageway or other public place."

By Supervisor Molinari, that a letter be sent to her Honor, the Mayor, requesting funds be appropriated to permit the Tax Collector to send a second notice that the second installment on property taxes is due April 10th to avoid a 10% penalty.

By Supervisor Nelder, that a letter be sent to the Department of Public Health asking for a report on incidents of cancer, AIDS, arthritis and Osteoporosis in San Francisco in the past 3 years compared to the 3 years immediately preceding adoption of fluoridation of water for the City in 1952. Also ask if, for the same periods, statistics exist showing rates of tooth decay in children up to age 14 and/or general rates of tooth decay.

By Supervisor Nelder, that a letter be sent to the Public Utilities Commission with a copy to the Water Department, specifically asking for a report on the processes used by the Water Department to infuse fluoride into the City drinking water, including all locations at which it is added from Hetch Hetchy; the amount added at each location and by whom; whether there is a monitoring process and how it works; addressing the regularity as well as the systems and personnel involved; and what our experience has been with corrosiveness it may have caused and what process is followed to combat that; what occasions, if any, have there been now that one part per million added to or found in any City water since 1952; and what procedure is followed to check sludge in pipes for fluoride deposits.

Tuesday, September 4, 1984

By Supervisor Nelder, that the City Attorney be requested to submit a summary of legal cases decided on the constitutionality of forcing people to drink fluoride.

By Supervisor Nelder, that a letter be sent to the General Manager, Municipal Railway, inquiring what can be done about problems encountered by MUNI passengers at the corner of La Playa and Balboa Streets where the white bus zone is not visible and people have begun parking their cars in that zone. Also there has been some problem with buses refusing to stop to pick up passengers at the end of the Balboa line. Handicapped or disabled persons are having trouble boarding buses because (1) the bus is not able to get to the curb because of vehicles parked in the loading zone; (2) the new "low" step is not being used to help such persons to board the coach and (3) some drivers are not being cooperative in positioning the bus where boarding would be easier for the elderly or disabled persons.

By Supervisor Nelder that a letter be sent to Pacific Gas and Electric Company asking it to repair curbs surrounding new condominiums at Ocean Beach, destroyed due to construction work and use of heavy equipment for the Ocean Beach condominium project.

By Supervisor Nelder that a letter be sent to the realtors of Ocean Beach condominiums asking that they repair curbs surrounding the condominiums, curbs destroyed by use of heavy equipment and dumping of gravel on the construction site for the Ocean Beach condominium project.

By Supervisor Renne, that the City Attorney be requested to redraft proposed legislation which would amend Section 832.1 of the Police Code.

By Supervisor Silver, that the City Attorney be requested to prepare legislation urging the Environmental Protection Agency to lower gasoline lead limits.

By Supervisor Silver, that a letter be sent to the School District and each member of the Board requesting that they respond to urgent needs of working parents where the 9:30 a.m. opening of schools presents problems, and to the general complaint of lack of afternoon day care supervised by School District employees.

By Supervisor Walker, that the City Attorney be requested to review, prior to the September Public Works Committee meeting, draft legislation amending codes, regulations and policies as to how to most effectively handle the granting of the use of sidewalks and street space during major constructions projects in San Francisco and offer better enforcement mechanisms.

By Supervisor Walker, that a letter be sent to the San Francisco Redevelopment Agency regarding the application of present and potential legislation by the Board of Supervisors on redevelopment areas.

NEW BUSINESS

Recommendations of Finance Committee

Passed for Second Reading

[Government Funding]

Ordinance appropriating \$20,800,000, Clean Water Program, for capital projects budget (construction of southeast treatment plant expansion). (Controller)

File 101-84-14, Ordinance No.

Supervisor Kopp commented that there was an unfinished question arising from the testimony given at the Finance Committee by Mr. Donald Birrer of the Clean Water Program, who stated that after the facility is completed, it would probably operate at a deficit of from \$150,000 to \$200,000 per year, which would be absorbed by the sewer service charge. Supervisor Kopp stated that the Budget Analyst and Controller were then requested to make an analysis of the costs as Mr. Birrer had no written calculations, and they came to a different conclusion, namely that there will be no deficit in operation of the facility after it is completed. The Supervisor called upon the Budget Analyst to confirm this fact.

Mr. Harvey Rose, Budget Analyst, confirmed that there would be a surplus at the end of a five-year period, and remarked that it is projected by the Clean Water Program that the operations of the Southeast Community Facility after its first five years of operation will have a cumulative excess of operating revenues over expenses of \$177,512. Mr. Rose stated that he concurred with this estimate, noting that the Clean Water Program used various assumptions in making those estimates. He further stated that if the assumptions turn out to be correct, and he believed that the assumptions used were variable, then the above-noted surplus would occur.

Supervisor Kopp thereupon requested that the Budget Analyst's remarks be inserted in the Journal of Proceedings.

The roll was then called on the pending ordinance and it was passed for second reading by the following vote:

Ayes: Supervisors Britt, Hongisto, Kennedy, Kopp, Maher, Molinari, Nelder, Renne, Silver, Ward - 10.

Requests Granted

There being no objection, the Board directed the Clerk to comply with the following requests:

By Supervisor Silver, that the City Attorney be requested to prepare legislation to prohibit residential parking permits for vehicles bearing out-of-state license plates.

By Supervisors Maher and Silver, that a letter of inquiry be sent to the Tax Collector, noting that the Supervisors have received complaints of individuals without current valid California auto registration are receiving preferential parking permit stickers, to determine whether his office has a system for catching such violations, including follow-up on reapplications which fail to submit copies of current valid registration receipts.

By Supervisor Kennedy, that letters be sent to the area manager of CALTRANS requesting their assistance in resolving the safety hazard created by the lack of appropriate traffic signal controls at the intersection of 19th Avenue and Holloway Street and to Assemblymen Willie Brown and Art Agnos requesting their intervention and assistance in providing relief to students at San Francisco State University.

By Supervisor Walker, that a letter of inquiry be sent to the Port Commission to determine the status of the San Francisco Welding lease at Pier 50.

By Supervisor Silver, that letters be sent to the Department of Public Works and the Police Department concerning a van which has been parked for three months in front of the condominium at 3321 - 26th Street.

By Supervisor Silver, that a letter of inquiry be sent to the Department of Public Works concerning the stench from the sewer at 22nd and Mission Streets.

By Supervisor Silver, that a letter of inquiry be sent to the Department of Public Works to determine if the sidewalk parking problem on the 1200 block of 10th Avenue could be remedied by narrowing of sidewalks in portions.

By Supervisor Molinari, that a letter of inquiry be sent to the Director of Public Works, asking that he survey the yellow zone in front of 2141 Polk Street. The Supervisor noted there is an extensive yellow zone in front of a restaurant and private dwelling rather than in front of a market on the same block and inquires whether the restaurant and private dwelling would be better served by parking meters.

By Supervisor Kennedy, that a letter of inquiry be sent to the Chief of the Fire Department, soliciting his opinion on the feasibility of the department's repainting their trucks lime yellow. The Supervisor noted that her request is made in light of a recent study done in New York State which indicated that the number of vehicle accidents involving trucks painted lime yellow was nearly 50 percent lower than with those trucks painted red; which figures were based on 100,000 emergency runs.

By Supervisor Kennedy, that a letter of inquiry be sent to the Department of Public Works concerning the state of disrepair of the 300 block of Topeka Street and requesting that the department provide the Board of Supervisors with a time frame as to when the residents of this neighborhood can expect the street to be repaired.

By Supervisors Britt and Walker, that the City Attorney be requested to prepare a Neighborhood Preservation Ordinance, the intent of which is to encourage neighborhoods to plan and evaluate their own neighborhood's needs and to develop their own master plan.

By Supervisors Britt, Walker and Ward, that the City Attorney be requested to prepare legislation with the intent of protecting endangered businesses essential to neighborhoods facing high rent increases. The purpose of the legislation is to give those businesses within neighborhoods who meet the criteria an automatic extension of their existing leases for a short period of time, to require landlords to act in good faith to negotiate with their tenants a fair increase and to guarantee the neighborhood that the use of the property will remain the same.

By Supervisor Ward, that the City Attorney be requested to advise the Board of the impacts legislation recently passed by the House of Representatives ending all rate regulation of the cable television industry after two years would have upon the City and County of San Francisco.

[Chinatown Interim Zoning Controls]
Resolution disapproving City Planning Commission Resolution No. 10121, imposing interim zoning controls to establish an interim Chinatown Core Special Use District and to regulate the elimination of dwelling units and the establishment of financial institutions in that district, an irregularly shaped area bounded generally by Bush, Mason, Broadway, Columbus and Montgomery Streets. File 110-84-8.3

Request Granted

Supervisors Kopp and Silver thereupon requested that a letter of inquiry be sent to the City Planning Commission to determine why there was a delay in its transmittal of the Chinatown Interim Controls to the Board, pointing out that had they been transmitted earlier they could have been considered as part of the October 16 meeting of the Planning, Housing and Development Committee without necessitating a special meeting of the committee, thereby inconveniencing the Board of Supervisors and the public.

No objection and Clerk directed to comply.

Introduction of Guests

Supervisor Silver introduced and welcomed Mrs. Edith Golubchikova-Kotlyar, who was accompanied by her daughter, son and husband. The Supervisor noted that Mrs. Kotlyar and her family had begun a hunger strike to protest the Soviet Union's refusal to allow her brother and aged mother to join the family in the United States. Supervisor Silver stated that a number of members of the Board had joined her in a letter to the local Soviet Consulate, urging the Consul General to use his offices to help reunite the family.

Requests Granted

There being no objection, the Board directed the Clerk to comply with the following requests:

Monday, October 15, 1984

By Supervisors Silver, Britt and Hongisto, that the City Attorney be requested to prepare in proper form legislation calling for a statewide policy on toxic contamination.

By Supervisors Walker, Silver, Ward and Kopp, that the Director of Health be requested to submit the results of his investigation of the Emergency Medical Service, specifically the plan of action that he refers to in his September 27 letter to the Clerk of the Board, and to provide the Board with information on ambulance response times, as soon as possible.

By Supervisor Kopp, that a letter of inquiry be sent to the Chief Administrative Officer to determine what he plans to do to eliminate the personnel problems of the Emergency Medical Service reported in the October 14, 1984 edition of the San Francisco Examiner, and specifically what he intends to do to expedite the response time in the Lake Merced area where it exceeds the safe limit.

By Supervisor Kopp, that a letter of inquiry be sent to the Chief Administrative Officer, to obtain justification for the payment of \$90,000 to the Director of Health when 40 percent of his budgetary responsibility has been removed.

By Supervisor Silver, that a letter be sent to the Department of Public Health, through the Mayor and the Chief Administrative Officer, to determine whether the job of paramedic on emergency ambulances is over-stressed and whether there are plans for restructuring the job; whether complaints of lax or non-existent supervision are accurate and requesting an explanation of the supervision system; and to suggest that should the department feel it appropriate perhaps a management audit by the Budget Analyst could be conducted if internal investigation is not sufficient. The Supervisor requested further that the Civil Service Commission be provided a copy of the letter with the request for its views on restructuring of the paramedic position.

By Supervisor Nelder, that a letter of inquiry be sent to the Department of Public Health to solicit recommendations on the sections into which the city should be divided for effective placement of a chain of emergency hospitals throughout the city.

By Supervisor Nelder, that a letter of inquiry be sent to the Real Estate Department, requesting a conference between that department and the Director of Health for the purpose of determining what city-owned locations are available for a chain of emergency hospitals.

By Supervisor Nelder, that the City Attorney be requested to prepare appropriate legislation requiring the labeling of all foods exposed to gamma radiation, with such legislation to read: "WHEREAS, Certain foods including garlic, onions, potatoes, herbs and spices are now being exposed to gamma radiation by cesium-137, cobalt-60, or high energy electron beam sources, and these irradiated foods may be among the produce being sold to consumers in the City and County of San Francisco; now, therefore, be it RESOLVED, That any and all foods exposed to gamma radiation from any source which are placed in the stream of commerce within the City and County of San Francisco shall be clearly labeled by the statements 'Treated or Processed with ionizing radiation', which shall appear in bold typeface on the label of any and all foods sold or offered for sale to retail consumers in the City and County of San Francisco."

Monday, October 15, 1984

By Supervisor Nelder, that the City Attorney be requested to prepare legislation to provide for conversion of a vacant city-owned lot at Bayshore Boulevard and Blanken Streets into a community mini-park.

By Supervisor Silver, that a letter of inquiry be sent to the Municipal Railway through the Mayor and Public Utilities Commission, concerning the deplorable and dangerous condition of the Forest Hills Muni Metro Station, noting the grimy and poorly lit condition of the temporary stairway and lack of handicap access to the inbound platform, to determine what is being done to remedy these problems and why there has been delay in completion of the reconstruction of the station.

By Supervisor Kopp, that a letter be sent to her Honor, the Mayor, requesting that copies of any and all written agreements reached with the Santa Fe Southern Pacific Company on Mission Bay be provided to the Board for inclusion in its files on the subject.

By Supervisor Nelder, that a letter of inquiry be sent to the Department of Public Works, to determine the feasibility of placing "Do Not Litter" signs in Spanish, Chinese and English at Mason and Filbert Streets and other areas where the department regularly receives reports that garbage and litter need to be removed and to determine whether the department has signs for this purpose. Should the department not have signs for this purpose, the Supervisor inquires whether one could be devised which could read: "This is our city. Help to keep it clean. Please don't litter." - or something to that effect.

By Supervisor Nelder, that a letter be sent to the City Attorney to determine whether San Francisco has joined in the class action suit against asbestos manufacturers to recover the cost of removing deadly asbestos from school buildings, as clearance to join the suit has been given by United States District Judge James McGirr Kelly. If the City has not joined original plaintiffs Lancaster Manheim Township and Lampeter-Strasberg Districts in Pennsylvania, the Supervisors requests that the City Attorney provide an explanation why the City has not done so.

By Supervisor Nelder, that a follow-up letter of inquiry be sent to the Water Department, requesting response to the following questions previously requested and unanswered:

What is the Water Department's policy and procedure for handling consumers complaints concerning giardiasis?

When was the policy/procedure established and what are the subsequent updatings?

Were Water Quality Division employees notified or furnished with copies of the procedure?

If the answer to the foregoing question is "yes", that a list of the employee who were notified or forwarded copies of the procedure be submitted.

Illustrate a specific case of the follow-up in chronological order after a consumer complaint was received concerning giardiasis, including names of personnel in the response.

How does the liason work with the City's Bureau of Communicable Diseases? When was the liason (if any) established?

Monday, October 15, 1984

What training has been provided to Water Department personnel in handling giardia cases? State when the training was provided and the names of the personnel who received such training.

Of the names submitted in response to the foregoing question, specify how many of them have been involved in investigating consumer complaints, including the names of the personnel.

By Supervisor Walker, that a letter of inquiry be sent to the Police Commission, through the Mayor, to determine whether it is true that the Commission is in the process of issuing new jitney permits, at no cost.

By Supervisor Walker, that the City Attorney be requested to advise whether or not the City could require that preferential parking permits be issued only to persons with automobiles that are registered in California and/or with automobiles registered at the appropriate address for the permit.

Moment in Memory of Eugene J. Kelleher

At the instance of Supervisor Kopp, the Board took a moment to note especially the death of Eugene Kelleher from cancer. Supervisor Kopp stated that Mr. Kelleher was a 28-year member of the Water Department and had been its General Manager for approximately the last eight years. He was conscientious, always sincere, always dedicated and had a commitment and devotion to responsibility and duty which set an example for all in the City and County of San Francisco and in city government. His dedication was conspicuous in that it distinguished him from so many public servants in two respects: He never asked for public recognition, credit or notice for anything accomplished by him in the Water Department, and the Supervisor stated he could not think of another department head who had the loyalty and respect that Mr. Kelleher had from employees in his department.

Requests Granted

There being no objection, the Board directed the Clerk to comply with the following requests:

By Supervisor Molinari, that the City Attorney be requested to prepare a Charter amendment to provide that use of the fund set aside for payment of claims by the Public Utilities Commission shall be confined to accidents involving Municipal Railway vehicles.

By Supervisor Kopp, that a letter of inquiry be sent to the Treasurer to obtain justification for maintaining 34 percent of the city's investment portfolio in long-term investments in light of the Mayor's contention that the city's surplus must be used to balance the budget for fiscal year 1985-86, and advice as to whether the Treasurer will be providing the Board with monthly reports concerning investments together with her comments on the recommendation of the Budget Analyst that the Chief Investment Officer should have an assistant.

By Supervisor Kopp, that the Budget Analyst be requested to provide the Board in January 1985 with year-end figures on the size of the city's investment portfolio.

By Supervisor Walker, that letters be sent to the Mayor's Office of Childcare and SEIU requesting their participation in hearings to provide on-site child care for city employees working in City Hall.

By Supervisor Kopp, that the City Attorney be requested to prepare legislation adopting the recommendations of the Budget Analyst in his report to the Board on the investment policies, procedures and practices of the Treasurer respecting mandatory independent and outside auditing and evaluation of the city's investment portfolio annually.

By Supervisors Renne and Kennedy, that letter be sent to the District Attorney, Human Rights Commission and Purchaser requesting them to be prepared to testify before the Civil Service and General Administration Committee about contract procedures with regard to award of contracts to minorities and women and to respond to a series of questions to be sent to each office.

By Supervisor Kopp, that the City Attorney be requested to prepare legislation that would prohibit minority participation credit being granted to a contractor who receives financial benefits from the subcontractor as a result of that contract. Supervisor Kopp noted that the intent of the legislation is to close the loophole that allows subcontracts to contract back 50 percent of their work to the prime contractor and yet the prime contractor receives minority participation credit.

By Supervisor Kopp, that the City Attorney be requested to prepare legislation that would increase the penalties for those violating the city's affirmative action regulations by prohibiting them from bidding on any future contracts.

Monday, October 22, 1984

By Supervisor Nelder, that a letter of inquiry be sent to the Department of Public Works to determine the status of traffic signals for the intersection at Miraloma and Portola Drives.

By Supervisor Nelder, that a letter be sent to her Honor, the Mayor, inquiring what her position would be on transferring administrative costs of various departments which are incurred with disbursal and administration of Community Development Block Grant funds from the CDBG funds themselves to the General Fund, and the reasons therefor.

By Supervisor Molinari, that a letter of inquiry be sent to the Recreation and Park Commission to determine why it has taken so long to provide an irrigation system in Buena Vista Park.

By Supervisor Molinari, that a letter of inquiry be sent to the Recreation and Park Commission to determine when tree topping will commence in Buena Vista Park.

By Supervisor Walker, that the City Attorney be requested to prepare legislation that would prohibit minority and women business fronts from receiving contracts earmarked for MBE/WBE participation.

By Supervisor Walker, that the City Attorney be requested to advise how to ensure that Small Claims Court Judges are familiar with Ordinance No. 299-83, providing that landlords pay interest on security deposits for residential property. The Supervisor noted that her office has been informed that one such claim had been dismissed in Small Claims Court.

By Supervisor Walker, that the City Attorney be requested to advise what impact Assembly Bill 3951 would have locally; if its mandate to raise jury fees does affect San Francisco, who is the responsible agency locally for setting jury fees and what procedures need to be established for implementation.

File 110-84-5.4. Resolution No. 926-84

Committee Report

As Chair of the Planning, Housing and Development Committee, Supervisor Kopp presented the following report of the public hearing on the Geary Boulevard Fast Food Moratorium.

"Those testifying in favor of a proposed moratorium on fast food establishments on Geary Boulevard, between 17th and 26th Avenues argued that Geary Boulevard already has problems with traffic circulation and parking; that more fast food establishments will increase those problems; that the impact of additional such establishments in this area would be disastrous because of those problems and because of problems created by noise, odor, litter and undesirable persons attracted to such places (such places provide a place to "hang out" late into the night). It was also argued that such establishments should not be permitted because the food is not nutritious and takes the place of nutritional foods. There was testimony that such businesses are not neighborhood-serving businesses and that to allow them to proliferate will permit the displacement of businesses that serve residents of the area and will destroy the small community atmosphere of the area. It was stated that there are already numerous eating establishments on Geary, as well as numerous financial institutions (one person said over 30 in this area).

Monday, November 26, 1984

"The controls should be imposed, it was argued, to prevent Geary from becoming a row of banks and fast food places. There was testimony that both residents and merchants support a moratorium on additional fast food establishments in order to preserve the character of the Richmond District, which has number of small fine restaurants which are a source of attraction for residents of the City and for tourists. It was argued that to allow more fast food places would detract from this area as a tourist attraction and as an attraction to the area because of its restaurants.

"Considerable testimony focused on two proposed fast food establishments, one at Geary and 17th Avenue (Burger King) and one at Geary Boulevard and 25th Avenue (McDonald's). There was testimony that the corner at 25th Avenue and Geary Boulevard has traffic circulation problems and has been the scene of various traffic accidents. It was argued that parking and traffic problems would be greatly increased if a fast food establishment were located there. Such problems would also be great because there is at that intersection a major bus stop. There was also testimony that traffic and parking problems would be created by a fast food establishment at Geary Boulevard and 17th Avenue. In addition, persons opposed these operations for the reasons mentioned above with respect to problems created by fast food establishments generally. A petition opposed to McDonald's at that location had been signed by approximately 1,900 persons.

"Persons arguing against the proposed controls testified that fast food establishments were beneficial because they provided low cost food and that such places were especially needed by senior citizens who would otherwise have no place to go for refreshment and socializing that they could afford. It was also argued that such places provided jobs for youth and that such jobs are greatly needed. Representatives of the proposed McDonald's and of the Department of City Planning stated that it was determined that McDonald's should not provide any parking because a parking lot would invite long lines of cars waiting to get into a limited number of parking spaces and that such lines would greatly disrupt traffic. It was argued that McDonald's would be geared to pedestrian traffic and that its location next to a major bus stop would encourage pedestrian use. It was argued that McDonald's makes major contributions to charitable causes in the community. A petition in favor of having McDonald's at that location was signed by approximately 1,400 persons. A representative for Burger King argued that there was sufficient parking in the area of its proposed location and that the merchants in the area supported the establishment of the operation at 17th Avenue and Geary Boulevard. The City Planning Commission had conducted a hearing on these proposed establishments under its power of discretionary review and had approved the permits.

"The testimony did not support the need for a moratorium on restaurants. An exception was sought for bakeries and operations incidental to bakeries, such as a sandwich service."

The roll was called on the pending resolution and it was adopted by the following vote:

Ayes: Supervisors Britt, Kennedy, Kopp, Maher, Molinari, Nelder, Renne, Silver, Walker - 9.

"A representative of a neighborhood organization in the area testified that it is essential that the area offer a cross-section of businesses; that the area is already over-run with fast food establishments and restaurants; that such operations create problems of traffic congestion, parking, loitering, odor, noise and litter; and that time is needed to prepare a long range solution to these problems.

"The City Planning Commission under its power of discretionary review had conducted a hearing on a proposed pizza establishment, Domino's, in the area and had approved issuance of the permit. A representative of Domino's testified in opposition to the moratorium."

(Department of City Planning)

File 36-84-8.4, Resolution No. 904-84

Committee Report

As Chair of the Planning, Housing and Development Committee, Supervisor Kopp presented to the Board the following report on the public hearing on the Nob Hill Reclassification:

"Those testifying in favor of imposing interim controls on Nob Hill in order to establish a temporary height limit argued that this area of the City is the most dense residential hill in the City and that it is an area subject to immediate and significant change; that a 65 foot height limit would be the highest residential height limit in the City; that Russian and Telegraph Hills both have height limits; that the fight to reduce height limits in that area has been going on for 6 or 7 years and that it was a fight to get the initial reduction from 320 to 160 feet; that the area has suffered damage from development since 1978; that the area involves a delicate balance of economics and aesthetics; that the area has the highest percentage of architecturally significant buildings and is the third most popular tourist area in the City; that these controls acknowledge the conflict between "need" and "profit" and provide time to properly address that conflict; that the census tract for the Nob Hill area shows that a majority of persons in the area are minority, that 43% speak English as a second language, that only 9% have incomes over \$50,000, that 95% of the buildings are within the 65 foot height limit now, that only 23% of the residents drive to work, that over 50% do not have or own automobiles, and that commonly there are 1.2 automobiles per resident, but in this area less than half of the residents have automobiles (although later there was testimony that the census tract information involves a larger area than that covered by the controls).

"It was argued that it is necessary to place a limit on height for a period of time so that a study could be undertaken in order to determine the permanent controls that should be imposed on height after there has been time for a planning study and further consideration of the issue. It was argued that lower height limits are needed:

- to protect affordable housing
- to protect sunlight
- to preserve the integrity of Nob Hill
- to protect the area's general environment
- to prevent development that would be an erosion of the scale and character of the area
- to protect the unique topographical character of Nob Hill
- to stop imminent development which would overcrowd the area and create excess traffic

"Those arguing in opposition to the proposed controls testified that these controls will prevent the construction of housing; that those who want the controls are trying to destroy reasonable new development; and that such development will provide taxes, make the City solvent and benefit our whole society.

"It was also argued that there should not be one height limit for the area, but varying height limits. In addition, it was argued that two proposed developments should be grandfathered.

"1300 Sacramento Street. It was argued that fairness and equity require that this proposed project be grandfathered. An application for a conditional use was filed in August of 1980 for various administrative procedures over a period of years. It is now proposed as a building of 130 feet in height for 24 units of housing. A negative declaration for that revised proposal was published and upheld after appeal. The Planning Commission approved the permit for that project subject to a requirement that the developer provide 22 replacement units within close proximity to the site. The developer has provided for such replacement housing at 1635 California Street. The Board of Supervisors affirmed that decision in May of 1982. Thereafter, a lawsuit was filed and the matter was remanded to the Planning Commission to clarify its findings and conclusions. In June of 1983, the Planning Commission determined that a focused EIR was required for the project. A preliminary EIR was submitted in September of 1984. The developer, his agents, and other members of the public argued that this project is the owner's dream home and that it should be grandfathered. It was argued that if the height limit is imposed, that the 22 units of replacement housing would not be built. Agents for the developer stated that the condominium units would sell for about \$350,000-400,000. There was also testimony over the prior tenants of the building, with some persons arguing that they were lower income persons who were evicted and with representatives of the developer arguing that they were provided moving and relocation assistance.

"1150 Sacramento Street. This project is for 69 condominium units and a two-unit townhouse. It would be 160 feet in height. It was argued that the developer for this proposed project has been working with the City for ten years on it and that the Department of City Planning has no objections to it. It was argued that in fairness and equity this development should be grandfathered; that the developer has owned the land for this project for more than ten years; and that at all times the code has permitted the proposed development. It was also stated that the persons who were testifying in favor of the controls and in opposition to this project reside at 1170 Sacramento.

"Numerous persons testified that the controls should not provide any grandfathering.

"A number of legal challenges were raised with respect to the environmental evaluation of the proposed controls. It was argued that the issuance of a negative declaration for the controls should not have been upheld because there was a dispute among experts over the potentially adverse physical consequences of the proposed controls; that insufficient time had been allowed to appellants challenging the negative declaration to consider amendments to the negative declaration; and that insufficient analysis of the cumulative impact of the proposed controls had been provided in the negative declaration."

Monday, November 26, 1984

By Supervisor Molinari, that letter be sent to boards, commissions and officials empowered to let contracts that would have applicability to the apprenticeship requirements of Administrative Code Sections 6.46 and 6.47, bringing to their attention said provisions and asking that they acknowledge their understanding of them and will, in fact, follow the provisions in letting of future bid documents.

By Supervisor Walker, that the City Attorney prepare legislation that would make it a conflict of interest for a Board member to vote on an issue that involves an individual who has donated more than \$250 for his/her campaign or friends' account.

By Supervisor Maher, that the City Attorney draft in proper form amendment to Section 2.202 of the Charter, to delete the requirement that the top vote-getter in a supervisory election become President of the Board, effective January 8, 1987.

By Supervisor Walker, that a letter of inquiry be sent to the Chief Administrative Officer, to determine the amount spent annually on the purchase of compost.
